Chief Special Master Corcoran

Filed: August 16, 2021

Special Processing Unit (SPU);  
Ruling on Entitlement; Concession;  
Table Injury; Influenza (Flu) Vaccine;  
Shoulder Injury Related to Vaccine  
Administration (SIRVA)

*Leigh Finfer, Muller Brazil, LLP, Dresher, PA, for Petitioner.*

*Sarah Black Rifkin, U.S. Department of Justice, Washington, DC, for Respondent.*

### **RULING ON ENTITLEMENT**<sup>1</sup>

On May 27, 2020, Jayson Clickner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*<sup>2</sup> (the “Vaccine Act”). Petitioner alleges that he suffered a left shoulder injury related to vaccine administration (SIRVA) resulting from the adverse effects of an influenza (flu) vaccination he received on February 5, 2019. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On August 11, 2021, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at 1. Respondent “concluded that compensation is appropriate because [P]etitioner meets the criteria for a presumed SIRVA, as defined by the Vaccine Injury Table”. *Id.* at 6.

<sup>1</sup> Because this unpublished Ruling contains a reasoned explanation for the action in this case, I am required to post it on the United States Court of Federal Claims' website in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2012) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

<sup>2</sup> National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

Specifically, Respondent found that “[P]etitioner had no history of pain, inflammation or dysfunction in his left shoulder; his pain occurred within 48 hours of receipt of an intramuscular vaccination; his pain and reduced range of motion were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality was identified to explain his symptoms . . . . In addition, given the medical records outlined above, the statutory six month sequela requirement has been satisfied.” *Id.* at 6-7 (citations and footnote omitted). Respondent further agrees that the scope of damages to be awarded are limited to petitioner’s left-sided SIRVA and its resulting sequelae only. *Id.*

**In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.**

**IT IS SO ORDERED.**
